- Set FA + RA coilover struts | Dampers are adjusted by easily operating adjustment wheels | Rebound is only adjustable if the top of the piston rod is accessible

KW Variant 3 inox-line

Unlimited individuality for performance & comfort

Damping forces can be adjustment separately in rebound & compression

The KW coilover Variant 3 inox-line kit and every single damper are subject to extensive quality tests during production to meet the high standards of our KW quality management. This is the only way we can meet our expectations to give up to five years warranty on our KW coilover Variant 3 inox-line when installed at one of our KW specialist dealer. KW coilover struts made of stainless steel are 100% rust-free and an unlimited life time.

Therefore the operation of the continuous lowering via the dirt-resistant KW trapezoid thread and the KW composite collar is also not affected after years. By the individual lowering with its continuous adjustment range, you can emphasize the sportiness of your vehicle visually. A feature that is very popular in the performance-oriented tuning scene.

Rebound and compression damping adjustable damper technology

Stainless steel technology inox-line

Individual, continuous lowering

tested adjustment range

VW SCIROCCO 1 - KW COILOVER SUSPENSION KIT V3 (55-95|55-95)

- High quality components for a long life
- Complete documentation for an easy handling
- Adjustable rebound damping with 16 exact clicks
- Adjustable compression damping with 12 exact clicks
- Unique, independent from each other working damping force adjustment

Setup: The individual adjustable rebound- & compression damping of the KW Variant 3 inox-line

The KW coilover kit Variant 3 inox-line is the perfect accessory for performance-oriented drivers and tuning enthusiasts who put a great demand on their suspension. The separately rebound and compression damping adjustable dampers with their well-thought-through click adjustment allow a perfect setup. So it is easy to influence the steering behaviour, directional stability, tire grip and handling characteristics when driving on the limit.
