K&N 54-5000 K&N Universal Air Intake Luftansaugsystem System

Artikelnummer: KN-54-5000

K&N 54-5000 K&N Universal Air Intake Luftansaugsystem System

Hersteller: K&N

Preis: CHF229.00 inkl. MWST. (CHF211.84 8.1 % MWST sind im Preis enthalten)

54-5000 K&N Universal Air Intake System

- Designed to increase horsepower and acceleration
- Includes injection-molded filter housing
- Washable and reusable lifetime air filter, includes molded velocity stack
- Flow tested assembly for optimal air flow and minimal pressure loss
- High air flow with excellent filtration
- Mounting hardware, vent adapters and cold air hose separately available
- Million Mile Limited Warranty

K&N's 54 Series shielded air intake system is a universal cold air intake system. The 54 Series assembly is designed to increase volumetric efficiency and engine horsepower. The intake incorporates a K&N famous cotton gauze air filter which is removable for periodic cleaning and provides the benefit of an open cone filter and standard air box in one unit. The plastic injection-molded housing acts as a heat shield to prevent any power loss. Assembly designs were flow tested for many hours before our engineers completed the shape to provide high flow with low restriction and great filtration all in a small space. Included in the box is a template to cut your own vinyl wrap for personal customization of the housing. The assembly comes with a 76mm air filter base flange and a 100mm housing intake diameter. The filter base incorporates a 1/4 inch NPT threaded fitting to attach an optional vent adapter.

Specifications
Product Style 54 Series Shielded Intake Air Filter Color Red Air Filter Material Cotton Gauze Air Filter Outlet Shape Round Clamps Included No Clamps Included Clamp Style No Clamps Required Clamp Material No Clamps Required Weight 2.5 lb (1.1 kg) Product Box Height 9.13 in (232 mm) Product Box Length 15.13 in (384 mm) Product Box Width 9.13 in (232 mm) Couplers Included None Mounting Hardware Included Yes Warranty 1,000,000 Miles/10 Year
