The PedalBox Pro with wireless remote control and app control with new functions

DTE developed the PedalBox to improve the responsiveness of modern-day vehicles. It's a plug & play device that simply connects onto plugs on the accelerator pedal. It has four user-selectable programs which improve throttle response by removing delays in the accelerator

- Acceleration free of any delay
- Direct throttle response for a sporty and dynamic driving experience
- 5 driving modes (Sport, Sport Plus, City, Eco, Serie), each with 7 levels that can be set according to the driver's preferences
- Now with remote control
- Now with immobiliser & Limit mode
- Quality product made in Germany by DTE Systems
