The PedalBox+ with App for Android & IOS Smartphones

DTE developed the PedalBox to improve the responsiveness of modern-day vehicles. It's a plug & play device that simply connects onto plugs on the accelerator pedal. It has three user-selectable programs which improve throttle response by removing delays in the accelerator

- Acceleration free of any delay
- Direct throttle response for a sporty and dynamic driving experience
- 3 driving modes (Sport, Sport Plus, City), each with 7 levels that can be set according to the driver's preferences
- Quality product made in Germany by DTE Systems
